## Startup Lab

PRODUCT DESIGN & DEVELOPMENT PARTNER FOR ENTREPRENEURS

Startup Lab, an integral part of Furation, is a dedicated Product Development Studio designed to cater to the unique needs of startups. It is specifically structured to oversee the entire product development journey, from the initial 'Eureka' moment to the creation of a Minimum Viable Product (MVP), all the way to a fully realized product and a thriving business.

- Minimal Viable Product (MVP)
- End-to-End Product Engineering
- Technology Migration/Re-engineering
- Startup/Product Advisory

## AI Lab

AI: From Buzzword to Business

The AI revolution is happening now, and it's not just a dream or hype. Affordable tools and a growing talent pool are making it a real possibility for your business to grow. Stay updated on the latest trends and create strong AI setups with our help. Using AI can make your processes better, find useful insights, and give you an edge over competitors. With AI, you can boost customer satisfaction and help your business grow. Now, the question is, how can my business make the most of it?

# Enterprise Digital Transformation

A 360 Degree Digital Face Uplift

> Enterprise System Integration

> Enterprise Content Management

> Enterprise Mobility Services

> Customer Relation Management

> Enterprise Collaboration

> Business Intelligence

> Cloud Integration Services

> Digital Payments/E-transactions

> SOA (Service Oriented Architecture) Services

> Architecture Transformation Services

# End-To-End Product Engineering

Consulting & Planning | Discover, Design, Develop, Deploy, and Iterate | Support & Maintain

Our product engineering capabilities can be split into five key categories

| 01 | 02 | 03 | 04 | 05 |
|----|----|----|----|----|
| Ideation, Design & Architecture | Development & Testing | Sustenance & Support | Product Re-engineerin | Training & Documentations |

### Customer Types

> Startups

> SMEs

> Enterprises

### Customer Scenarios

> New Product Development

> Partially Developed Product

> Legacy Product Migration / Re-engineering

> Maintenance & Support Services

> Minimal Viable Product (MVP)

> Proof Of Concept (POC)

### Methodologies

> Waterfall

> Agile Scrum

> Kanban

> Extreme Programming (XP)

> Spiral

> Ropid Application Development (RAD)

| Domain Specialists | Matured Processes | 24X7 SLA Driven Support |
|---|---|---|

# OUR SERVICES

One-Stop Shop For All Your Digital Needs

## Enterprise Mobility

Harness the power of a mobile-first journey with industry-specific solutions

- Enterprise Mobile Strategy
- User Experience
- Application Development
- Testing Services
- Integration Services
- Deployment & Support
- Mobile App Marketing

## Web Development

Personifying Digital Engagement with Intuitive Web Solutions

- Core Services
- Enterprise Business Solutions
- Content Management Systems
- E-commerce Solutions
- E-governance Solutions
- Middleware Development
- Web 2.0/3.0 Sites

## Blockchain

Deciphering blockchain and building sustainable and robust custom solutions

- Blockchain Application Development
- Advisory and Consulting
- Enterprise Solutions
- Blockchain Framework
- Integration Services-0
- Testing Services

## QA & Testing

We believe that Software Products must SOLVE problem(s)

- Functional Testing
- Non-functional Testing
- Specialized Testing Services
- Test Automation

## RPA

Everything that you need for Intelligent Automation

- RPA Development & Deployment
- RPA AOM & COE Strategy
- Robotic Application Monitoring
- Robotic Test Automation
- Customized RPA Solutions

## UI & UX Design

Adding life to Software by creating meaningful UI/UX Design

- Research
- User Experience (UX) Design
- User Interface (UI) Design
- Usability Testing
- Product Redesign Services
- Front End Development

## Cloud Computing

Drive innovation & lower the costs with agile & scalable cloud solutions

- Strategy & Assessment
- Cloud Enablement
- Lifecycle Management

## AI & ML

Driving efficiencies with AI & ML powered solutions

- Strategy and Build-up
- Business Case Planning
- Business Process Assessment and Redesign
- Data Management
- Customization, Development and Integration
- Risk and Compliance

## Data Science

Extract value from DATA that matters

- Strategy and Build Up
- Integration Management
- Data Processing
- AI/Machine Learning
- Data Analysis

## Internet Of Things (IoT)

Leverage sensor technology through integration with business applications

- IoT Strategy
- IoTization
- IoT Platform
- IoT Applications and Analytics
- Integration with Legacy Systems

## IMS

Managed Services for IT Infrastructure

- IT Security Network & Server Management (Linux/Windows)
- Server, Application, Database Management & Monitoring
- Microsoft O365 Infrastructure & Active Directory Services
- Virtualization Private & Public Cloud (AWS, Azure, GCP)

## DevOps

Bridging the gap between IT
Development and Operations for seamless project delivery

- DevOps Consulting
- DevOps as a Service
- DevOps Enablement
- Smarter Environments

## SAP

Get unified SAP solutions to gain a competitive advantage

- Enterprise Transformation
- Evaluation and Design
- Integrations, Upgrades & Migrations
- Review & Optimisation

## Software Consulting

We connect strategy, technology, and design to deliver business-changing results

- Digital Strategy
- User Experience Strategy
- Technologies
- Platforms
- Infrastructure Selection

# We Work With

## Enterprises

Working With Large Enterprises As Well As Small & Medium-Sized Enterprises (SMEs)

We transform the way small, medium & large enterprises conduct their business with customers / clients, vendors / suppliers, partners and employees in this digital age.

## Agencies

Working With Consulting Companies, Independent Software Vendors (ISVS). Software Product Development Companies and Agencies

We partner with agencies to work on a project end- to- end as an extended team to build their client's project successfully.

## Startup

Worked with more than 50+ Global Tech Startup For Their Web / Cloud / Mobile / IoT Needs

We empower and support startups with our digital expertise & experience at each stage - whether you are at Seed stage OR Expansion stage.

# Our StartUp
## Services

⭐ **Minimal Viable Product (MVP)**

The ultimate objective is to construct the right solution that addresses the core problem and promptly pinpoint the product-market fit, all while making judicious investments of time and resources.

⭐ **End-to-End Product Engineering**

Our all-encompassing product engineering services are geared toward constructing, enhancing, and scaling products that effectively span the entire product life cycle.

⭐ **Technology Migration/Re-engineering**

We aid startups in re-engineering and optimizing their products by evaluating current applications, addressing pain points, and aligning with future business objectives.

⭐ **Startup/Product Advisory**

Delivering technology and business consultation with added value to startups, minimizing risks and enhancing the likelihood of success.

## Scale/Hyper Growth Stage

We drive growth by hacking customer satisfaction, enhancing retention, improving conversion, and fostering innovation through data-driven execution.

- Team ramp up
- Re-engineering
- DevOps Support
- Test Automation

- Personalization & Intelligence Improved UX through Micro-interactions
- Big Data & Machine Learning

## Seed Stage

Have a brilliant idea? As a startup product development company, we assist you in formulating and executing a strategy to launch your MVP in the market within 6-12 weeks.

- Idea Validation, POCs & Technical Feasibility
- Brainstorming Workshops
- MVP Design & Development Service for Startup
- Product Discovery (Blueprint)
- Go to market (GTM) Strategy
- Fundraising Support

## Expansion Stage

We drive growth by hacking customer satisfaction, enhancing retention,  improving conversion, and fostering innovation through data-driven  execution.

- Quick Team Augment/Ramp Up
- Performance Optimization
- Architectural improvement For Scalability
- Fundraising Support
- DevOps Support

- Analytics & Improved Engagement Usability Assessment & Improvement
- Technology Audit

# Our **Happy Clients**

Helping new brands start up and old ones start over.
